

JAIME GOMEZ

GRAPHIC DESIGN

PROFILE

I love drawing and I do it since I was a very small kid. Since a very short age I have felt this strong passion and a great interest about drawing, color, shapes, creativity and visual arts. I am a passionate for illustration, color, typography, and everything about graphics. I develop myself pretty well in Illustration, Advertising design, layout and photography.

I'm a lover of good orthography, which makes me an integral professional at design discipline.
